TATU DISC 6010 GAICR WHEELED OFFSET DISC HARROW

**DURABILITY THAT
LASTS A LIFETIME**

Specially designed to operate with wheel or crawler tractors.

It is ideally suited for tough ploughing jobs found in newly cleared forest areas or post-harvest heavy crop stubble.

TATU DISC 6010 GAICR WHEELED OFFSET DISC HARROW

FEATURES:

- Welded and rugged tubular steel frames
- Adjustable parallel left
- Fully adjustable disc gangs
- Perforated offset bar to allow lateral drawbar adjustments under varying draft conditions
- Box type construction drawbar with swivel tongue
- Hydraulic controlled depth gauge and transport wheels mounted to wheel hubs that have greasable tapered roller bearings
- Double acting hydraulic cylinders with hoses and quick couplers
- Rugged 1 3/4" round, heat-treated steel alloy disc gang axles
- Oil bath disc gang bearing assemblies
- Cast iron 'cotton reel' type disc spacers
- Heavy duty disc plate scraper
- Tool kit standard
- Made in South America

PRODUCT CODE	PLATES	WORKING WIDTH		DISC PLATES		WEIGHT PER DISC (KG)	WEIGHT (KG)	HP REQUIRED
		FT. IN.	(MM)	DIMENSIONS	SPACING			
NCU 4010	14	5'9"	1750	28"x7.5mm	10.5/8" (270mm)	116	1665	70-90
NCU 4011	16	6'7"	2000			120	1965	80-105
NCU 4012	18	7'7"	2300			118	2190	85-120
NCU 4013	20	8'5"	2570			113	2330	90-130
NCU 4014	22	9'4"	2840			104	2475	95-150
NCU 4000	24	10'2"	3110			106	3625	100-160
NCU 4001	28	11'12"	3650			99	2915	110-145
NCU 4002	32	13'9"	4180			118	3990	120-220
NCU 4003	36	15'6"	4720			116	4400	130-250
NCU 4004	40	17'3"	5250			115	4868	140-280

All models have hydraulic controlled depth and transport wheels which make them more manoeuvrable and easier to transport to other fields
