

HEAVY DUTY FLAT ROLLER

Proudly Australian Made

The DELMADE Heavy Duty Flat Roller is a versatile implement available in a range of widths and diameters to suit every application. Manufactured from Heavy Wall steel pipe and using a heavy duty RHS frame, the weight can be increased by filling the cylinder with water.

The DELMADE Flat Roller is used to press rocks into the ground, and level out turf clumps or soil clods for smoother pasture, especially in heavy traffic areas where stock have “pugged” up the surface. Seed bed can also be rolled down, firming up the soil for better moisture retention and seed germination.

FEATURES

- Heavy duty RHS frame
- Pole stand (adjustable)
- Scraper available
- Water-fillable

OPTIONS

- Weight tray
- Transport wheels
- Scraper blade
- Hydraulic brake
