# BERENDS

## Merbein Ploughs

- Available in 2 disc and 3 disc units for either side. If using only one unit on a toolbar it is recommended that a rear coulter is fitted.
- 6', 7' and 8' toolbars.
- Ploughs can be adjusted for width along the toolbar and fitted to either mound beds (see picture left) or form shallow channels.
- Should be operated in cultivated soil.
- A range of tines and points are also available to suit this toolbar.
