

# HEAVY DUTY CULTIVATOR

4.8m Cultivator with optional smudge

Proudly Australian Made

The DELMADE Heavy Duty Cultivator is a reliable and proven performer, made in Tasmania for the harshest Australian conditions.

It is ideal for all general cultivation needs, including seed bed preparation, pasture aeration and renovation, weed control and mixing in fertiliser, and is heavy enough to penetrate hard ground as a primary cultivator.

To better exploit the heavy but resilient frame, HD S-tines are used, in combination with a HD helper spring, which allows both maximum penetration and vibration in hard ground, and allows a higher speed to offer a time saving benefit.

The DELMADE HD Cultivator is available in eight models ranging from 2.4m to 6.0m wide units, four of which are hydraulic folding-wing models. Crumbler rollers

are optional on the standard width models, and are standard on all folding models and offer the ability to control cultivation depth, and smooth out clods. Spring tine harrows are also an option and are fitted after the crumbler roller.

## FEATURES

- HD RHS frame
- 150mm tine spacing
- HD 'S' tines (45mm x 12mm) with helper
- 12 month guarantee against tine breakage
- HD adjustable crumbler – (Std on folding models)
- HD 1½" long-life "MAXI-POINTS"
- Wing depth-wheels standard on folding models
- Category 2 tractor mounts

PRODUCT CODES	WORKING WIDTH	TRANSPORT WIDTH	NUMBER OF TINES	HP REQUIREMENT	FOLDING	NETT WEIGHT (KG)
DCU 0580	2.4m (8')	2.5m	16	48-64	No
