GEARBOX
WARRANTY**

BERENDS WARRIOR SLASHER

The WARRIOR Slasher is the strongest slasher in the Berends Range. It features an unlimited HP Italian gearbox and is exceptionally strong.

FEATURES & BENEFITS

- Extra strong build 6mm top plate with exceptionally strong perimeter and centre tubular cross-members - where it counts.
- **Adjustable skids.**
- Two-pack paint finish.
- Headstock made from heavy angle and RHS and fitted with floating (toggle) top link.
- Bondioli & Pavesi (Italian) Series 8 PTO drive-shaft with integrated 4 plate slip clutch protects slasher and tractor. An integrated clutch means less wear between the clutch and PTO shaft.
- Hardened and tempered spring steel rotor blade assembly.
- **Front and rear chain kits** are standard with easy to replace chain pieces.
- **Twisted and stepped 75 x 16mm Boron slasher blades** create an updraft effect which lifts the grass flattened by the tractor wheels. All bushes are through hardened. Made in Australia, the blades are hardened and tempered in the 40-45 Rockwell range. This range gives excellent hardness while delivering strength and fatigue resistance. Any harder and they potentially become brittle.
- **Hardened and tempered spring steel rotor blade assembly.** Bolt head protection allows easy changeover of blades.

OPTIONAL

- Chain stays.
- Bolt head protection for easy changeover of blades.
- Dual puncture proof solid rubber wheel kits for easy depth control.

**THE STRONGEST
SLASHER IN THE
BERENDS RANGE**
