

REVERSABLE BLADE & ROOT RAKE

Features

The reversible blade & root rake allows the operator to switch over to a root rake when the blade is not in use for earth moving activities. Topsoil does not disappear as the reversible root rake will only pick up debris caught along the way. There are multiple configurations for the reversible blade & root rake

- Manual angle
- Manual tilt
- Hydraulic angle
- Hydraulic tilt

Optional flip down root rake.

	Width (m)	Height (mm)	HP Range	Weight (kg)
2000 Series	1.2	570	15-24	60
3000 Series	1.35	570	20-45	95
	1.5	570		130
	1.8	570		200
6000 Series	1.5	570	40-60	170
	1.8	570		200
8000 Series	1.8	720	50-100	250
	2.1	720		275
9000 Series	2.1	720	100+	275
	2.4	720		300
	3.0	720		330
